

Reduce Rubbish *Workplace Tips*

- Reduce the amount of paper you use by sending documents electronically.
- Use double-sided copying.
- Re-use one-sided copies for drafts and notes.

Holiday Schedule *(Schedule Changes)*

CCD will observe the Labor Day Holiday on September 3, 2007. All pickups will be one day behind.

As a reminder, holiday schedules are always posted in our local papers and on our website at www.ccdisposal.com.

Did you know?

In 1865, an estimated 10,000 hogs roamed New York City, eating garbage. Now, one of every six U.S. trucks is a garbage truck.

Visit www.stopjunk.com to see what you can do to stop receiving junk mail.

NEW WEBSITE!

Everyone at CCD is excited to introduce our **New Website!**

Now you can check out all of our services, see drawings of dumpsters with dimensions, review schedule changes due to holidays, make requests and get quotes, and much more. In addition, we have included a map that shows service days for our residential customers. The site also includes helpful links to other local and na-

tional websites that you may find useful.

Soon you will be able to pay your CCD garbage bill online and receive electronic statements in our effort to reduce the amount of paper products used by our office!

Be sure to visit www.ccdisposal.com. We believe this will be a useful tool for all of our customers, and hope you will continue to utilize the site on an ongoing basis.

SERVICES OFFERED BY CCD

COMMERCIAL & CONSTRUCTION SERVICES include: 1.5, 3, 4, 6, 8, and 10 cubic yard dumpsters, 15 and 30 cubic yard roll-off dumpsters, portable restrooms and sinks, and portable storage units. All mentioned services are available daily, weekly, monthly or on call for your convenience.

RESIDENTIAL SERVICES include an array of choices: 32, 68 or 95 gallon carts for garbage. Additionally we offer unlimited household garbage service, recycling service with bin(s), and drive-up service.

Call us at 726.9600 or visit www.ccdisposal.com for more info!

USB Cell Rechargeable Batteries

Save Money, Hassle & the Environment!

It's not just plastic bags that are wasteful and bad for the environment, over 15 million batteries are made and thrown away each year, causing significant CO² resource waste in manufacturing and high toxicity in landfills.

One new cool alternative out there is the USB Cell by Moixa. This AA battery is recharged by plugging it into any USB port.

Recharge anywhere!
To purchase,
visit www.usbcell.com.
