- Friday done Saturday

Mobile Storage Units

Mobile Storage Units are available for short term or long term rental. All units are 20' long, 8' wide by 9' tall. Call 208.726.9600 for pricing and availability!

Garbage Cart Liners

Clear Creek Disposal has Heavy Duty Cart Liners for sale. These liners help keep odors from sticking in your carts. The liners are available for all three sizes of carts. The cost is \$90.53 for a case of 100 trash can liners. They can be delivered to your door for a fee, or you can come and pick them up! Call our office for information 208.726.9600.

YARD WASTE

It is that time of year again... yard waste is accumulating and you are not exactly sure what to do with it. Let us take care of it for you. We offer a wide variety of options for disposing of yard waste—from household sized dumpsters to roll off boxes for that extra big project. Call our office for help with suggestions and pricing that will suit your needs. 208.726.9600

GO PAPERLESS!

You can now receive your Clear Creek Disposal bill via e-mail! Save paper and call our office with your e-mail address. You can also pay your bill with your credit card to eliminate having to mail your payment in! This service can be set up to recur on a monthly or quarterly basis! Call us to have these services set up! You can also reference any past newsletter on our website at www.ccdisposal.com under the news tab!

ECO-FRIENDLY RECYCLE FACTS & TIPS

Recycle junk mail—don't throw it away!

The average household receives 1.5 trees worth of junk mail each year! You can now recycle all of your junk mail using our recycle service. The White Office Paper classification that exists at Ohio Gulch Recycle Center has been expanded and now includes Junk mail as well as many other paper sources. Check our website at www.ccdisposal.com or call our office for more information.

To reduce the amount of junk mail

you receive, register with the mail preference service. It costs \$1.00 and you can do it online at www.dmaconsumers.org/cgi/offmailinglist

If Americans separate their paper, plastics, glass and aluminum from their trash and recycle it, we can decrease the amount of waste sent to the landfills by 75%. Currently, it takes a land mass the size of Pennsylvania to accommodate all of our waste each year.

Special Event Planning

Planning a wedding, party or BBQ? We have Portable Hand Wash Units, Special Event Portable Restrooms, Wheel Chair Accessible Special Event Portable Restrooms, Special Event Cans, Recycle Bins and Dumpsters. We will deliver all units clean, fresh and ready to use to make your special day just a little bit easier. Call today to place your order!

GREEN TIPS:

Sustainable Options

COMPACT FLORESCENT LIGHT BULBS

If every American replaced just five regular light bulbs with a more energy efficient compact light bulb, we would keep more than one trillion pounds of greenhouse gasses out of the atmosphere, equal to the emissions of eight million cars. That's six billion dollars in energy savings! Imagine if all light bulbs were replaced with compact florescent light bulbs!!!

Choosing the correct florescent light bulb for the correct kind of fixture is also important to ensure the CFL bulb will perform properly and last as long as possible.

How to choose the right light bulb:

CFLs perform best in open fixtures that allow airflow, such as table and floor lamps, wall sconces, pendants and outdoor fixtures.

For recessed fixtures, it is better to use a reflector CFL than a spiral CFL since the design of the reflector evenly distributes the light down to your task area.

If a light fixture is connected to a dimmer or three-way socket fixture, you'll need to use a special ENERGY STAR® qualified CFL designed to work in these applications. Make sure to look for CFLs that specify use with dimmers or three-way fixtures.

Choose a qualified CFL that offers a shade of white light that works best for you. For example, while most CFLs provide warm or soft white light for your home, you could choose a cooler color for task lighting.

To choose the ENERGY STAR® qualified CFL with the right amount of light, find a qualified CFL that is labeled as equivalent to the incandescent bulb you are replacing.

Light bulb manufacturers include this information right on the product packaging to make it easy for consumers to choose the equivalent bulb. Common terms include "Soft White 60" for "60 Watt Replacement."

You should also check the lumen rating to find the right CFL. The higher the lumen rating, the greater the light output. Consult the Following chart to determine what CFL wattage is best to replace your incandescent light bulb:

LIGHT OUTPUT EQUIVALENCY

INCANDESCENT LIGHT BULBS	MINIMUM LIGHT OUTPUT	COMMON ENERGY STAR® QUALIFIED LIGHT BULBS
40	450	9-13
60	800	13-15
75	1,100	18-25
100	1,600	23-30
150	2,600	30-52

ECO CHIC PRODUCT OF THE MONTH

Zak Dishware

These beautiful and functional dishes, bowls and serving pieces come in fabulous colors and are made from recycled Melamine! Ketchum Kitchens located at Giaccobi Square in Ketchum carries a huge selection of this fabulous Zak Dishware.
